

Introdução a testes com workflow

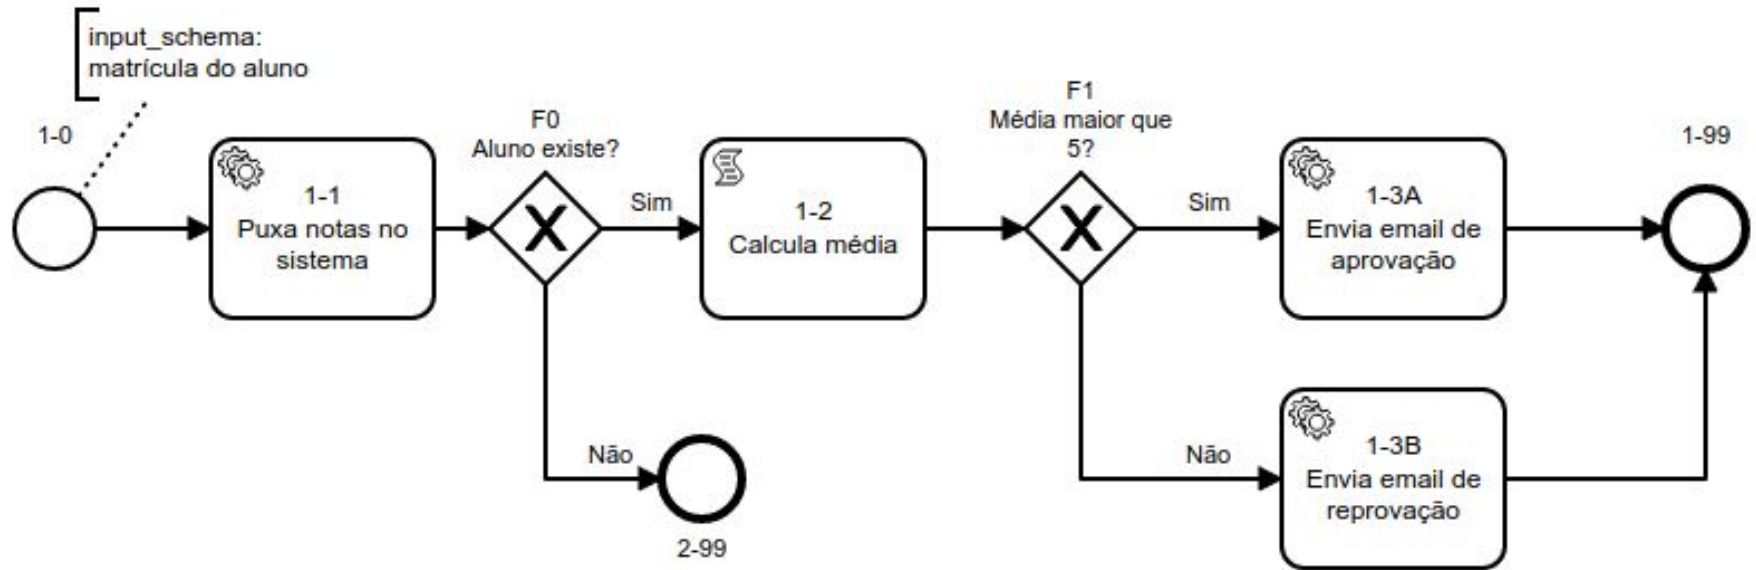

Utilizando framework jest

Por que usar usar Jest?

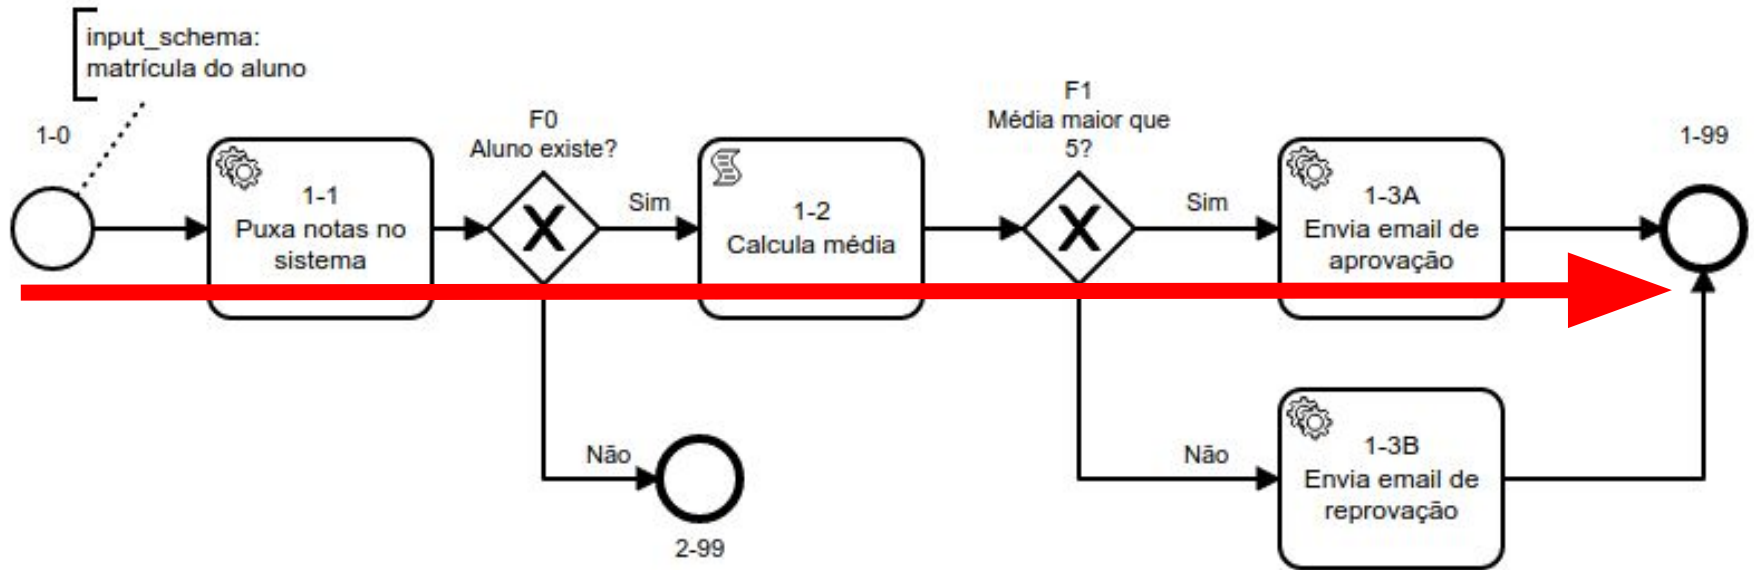

- Configuração simples
- Sintaxe **xUnit**
- Mesmo framework usado no *workflow engine*
- Mensagens de erro explicativas

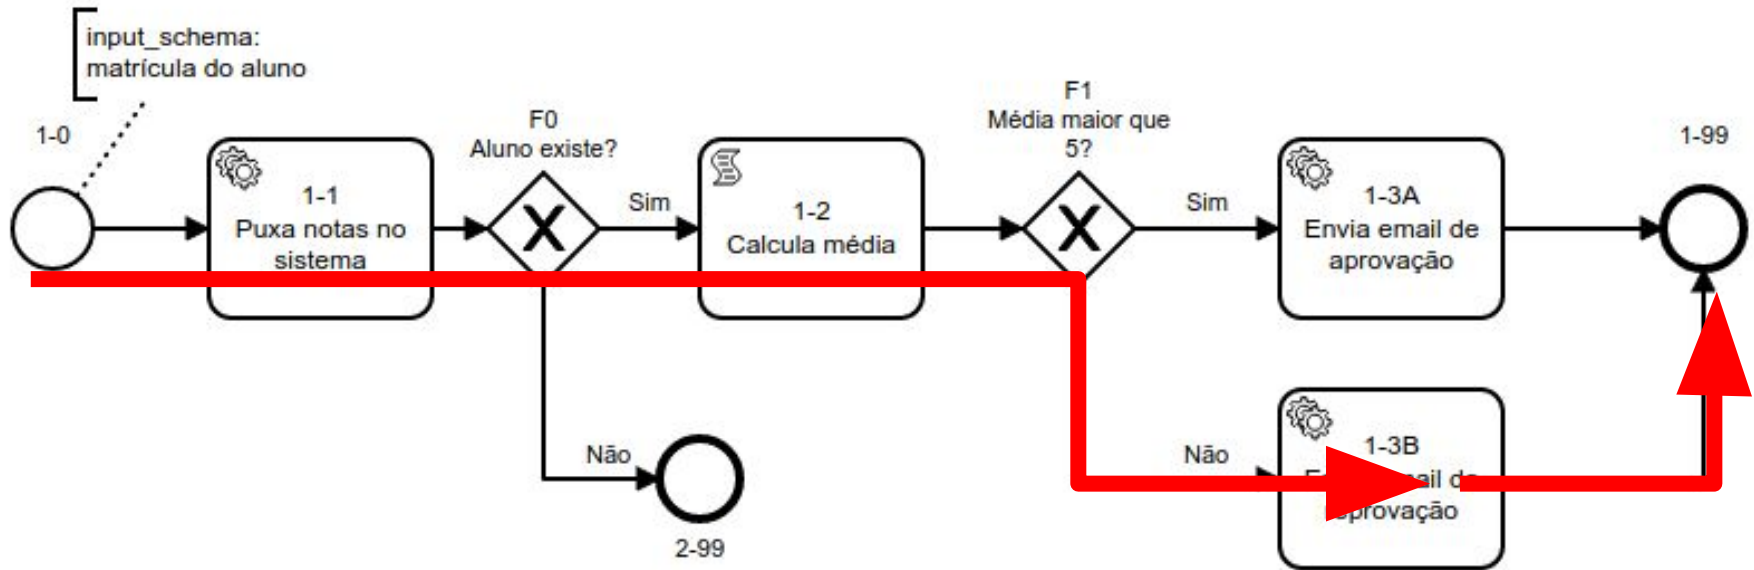

Workflow exemplo

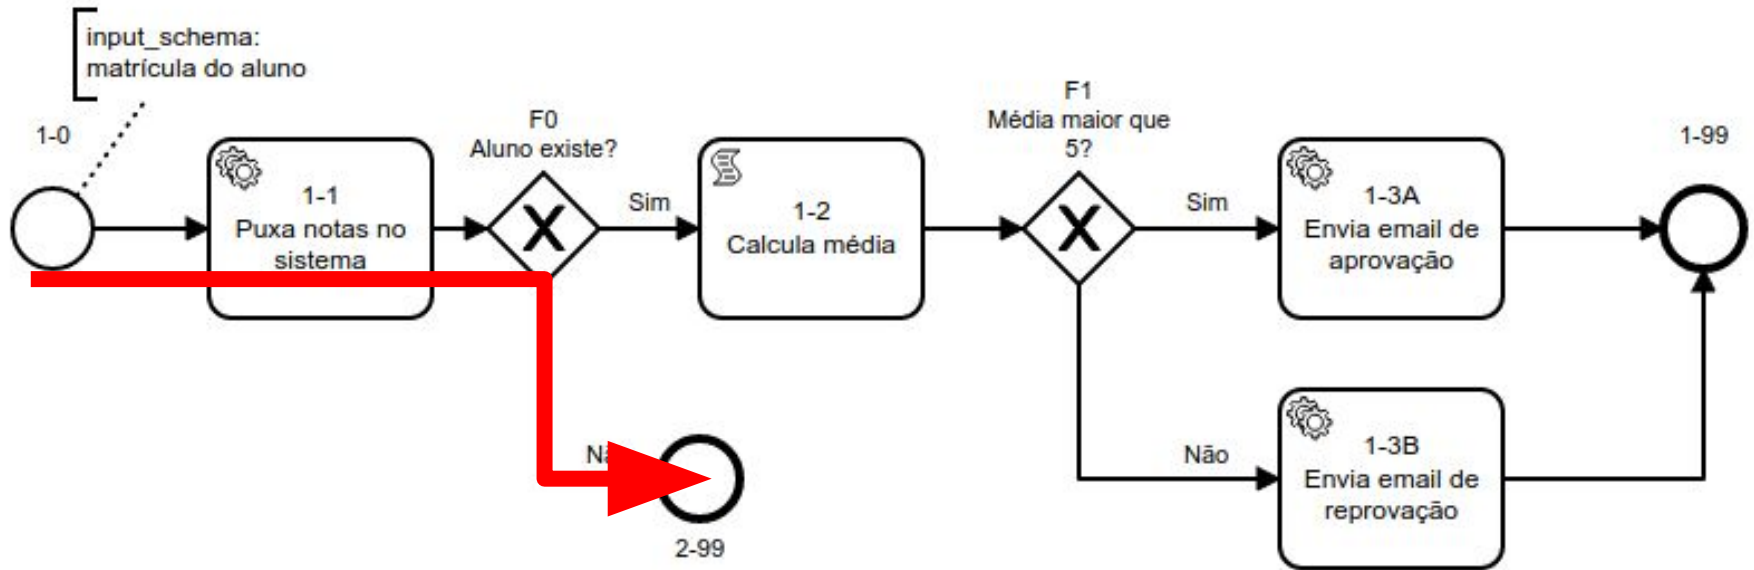

Workflow exemplo

Workflow exemplo

Workflow exemplo

```
describe('Sistema alunos', () => {  
  test('Bloco 1.1 - Aluno aprovado', async () => {  
    // ...  
  });  
  test('Bloco 1.2 - Aluno reprovado', async () => {  
    // ...  
  });  
  test('Bloco 2 - Aluno não existe', async () => {  
    // ...  
  });  
});
```

```
beforeAll(async () => {  
  await runMemorySeeds();  
  engine = new Engine('memory', undefined);  
});
```

```
let workflow = null;  
  
beforeAll(async () => {  
  workflow = await engine.saveWorkflow('sistema_alunos',  
    'Sistema de alunos', blueprint_spec);  
  
  expect(workflow.id).toBeDefined();  
});
```

O que conferir?

```
const process = await engine.createProcess(workflow.id, actor_data,  
  { matricula: 1234 });  
  
expect(process.id).toBeDefined();  
  
await engine.runProcess(process.id, actor_data);  
  
const state_history = await engine.fetchProcessStateHistory(process.id);  
fs.writeFileSync(`states/fluxo_1_1_${states_file}`,  
  JSON.stringify(state_history, null, 2), 'utf8', () => { });
```

O que conferir?

```
expect(state_history.find((state) => state.node_id === '1-1')  
  .result.status).toEqual(200);
```

```
// Must pass through node 1-3B  
expect(state_history.find((state) => state.node_id === '1-3B'))  
  .toBeDefined();
```

```
expect(state_history[0].status).not.toEqual('error');
```

Resultado

```
blue-test on  master [] is  v1.0.0 via  v12.18.3 took 4s
> npm test

> spec-tester@1.0.0 test /home/felipe/Documentos/FDTE/blue-test
> jest --runInBand

PASS blueprints/tests/sistema_alunos.test.js
  Sistema alunos
    ✓ Bloco 1.1 - Aluno aprovado (49 ms)
    ✓ Bloco 1.2 - Aluno reprovado (18 ms)
    ✓ Bloco 2 - Aluno não existe (21 ms)

Test Suites: 1 passed, 1 total
Tests:       3 passed, 3 total
Snapshots:   0 total
Time:        2.592 s, estimated 4 s
Ran all test suites.
```
